## Introduction

Welcome to the March 2024 OSFM Engineering Newsletter. Since our September 2023 newsletter, there was a regularly scheduled quarterly Building Code Council meeting held on December 12th. In addition, there was another meeting held October 17<sup>th</sup>, 2023, to introduce the proposed 2024 Energy Code (not for 1-and-2 family dwellings) and its associated cost-benefit analysis and fiscal note, and a special meeting held December 19<sup>th</sup> to reintroduce the bulk of the proposed 2024 Building Code Volumes after Rules review of the original submissions. This was done to hold the timelines for getting the volumes published.

Please see Table 1: NC 2024 Code Progression Tracking in the Reminders and other Resources section of the Newsletter for more information on the progression of the various 2024 code volumes.

## Current Topics

### 2024 NC Building Code

As discussed in the Introduction, several Building Code Council meetings have occurred since the prior newsletter, one a normally scheduled quarterly meeting, and 2 others for purposes of addressing requirements from Rules Review Commission and in the interest of maintaining the publishing goals of the next code edition.

The recordings are posted on the NCDOT website.

<https://www.ncosfm.gov/codes/building-code-council-bcc/bcc-meeting-recordings>

### A2L Refrigerants

Independently of the NC Code, the refrigeration and HVAC industry are transitioning to A2L refrigerants. Kathryn Whalen, the Chief Mechanical Code Consultant, has been doing in-depth research on the ASHRAE and ICC requirements, both existing and proposed. In the next newsletter, we will post some of the results of the research.

## Recurring Articles

### Building Code Council – December Quarterly Meeting (December 12<sup>th</sup>)

A regularly scheduled quarterly BCC meeting was held on December 12th, 2023. The full agenda can be read at the link listed below. The link will take you to the BCC Meetings webpage and the reader must then click on the .pdf file to open the agenda file.

BCC Meeting Agenda-December 12<sup>th</sup>, 2023

<https://www.ncosfm.gov/news/events/building-code-council-meeting-december-12-2023>

The full review of the approved code amendments is left to the reader, but **the titles of each item** are bulleted below. Remember these are not final until they are through the Rules Review process. The approved December D-items, if approved by Rules Review Commission, will be effective January 1, 2025 for items pertaining to the Commercial Building Code.

BCC Proposed Amendments-December 12<sup>th</sup>, 2023

## Building Code Council – December 19<sup>th</sup> Meeting

Normally this newsletter just lists the D-items, but for the special December 19<sup>th</sup> meeting, the main purpose was to re-introduce the code volumes that had been previously introduced, but due to Rules Review requirements for formatting, the volumes were re-introduced. These were re-introduced, along with some coordinating code and statute requirements, as B-items at this special meeting. Therefore, the B-items are shown. These were all accepted for further processing by the Building Code Council and the summary of this meeting is as follows.

## **Code Officials Qualification Board Updates**

At the January regular meeting, the Board approved proposed rule changes to 11 NCAC 08 .0706 that would better align North Carolina certificates with ICC Commercial and Residential.

The COQB will hold its regularly scheduled meeting April 23rd, 2024 1:00 PM - 4:00 PM.

Details, including future meetings, past meetings, agendas, and minutes are available on this webpage link

# Department Notes

## Engineering Department

David B. Rittlinger, P.E. has officially transitioned into the Division Chief-Codes & Interpretations. We welcome David in his new role which duties he had been performing since Carl Martin's retirement, and wish him continued success in this new role.

Bonnie Bentley, P.E. is joining OSFM as an engineering and codes investigator for the NC COQB & HILB Boards. Bonnie is from Goldsboro, NC where she worked as a level 3 plumbing and building inspector. Her other experience includes construction project management and inspections of cell towers. She is a licensed PE and General Contractor.

Jeff Griffin is joining us as an Engineering & Codes investigator for the NC COQB & HILB Boards. Jeff is originally from Lexington Kentucky having moved to NC in 1979 and for the last 27 years he has worked in local government code enforcement. Jeff recently retired from Mecklenburg County having served as a Code Enforcement Manager/Asst. Building Chief for that jurisdiction. He has served on the Code Officials Qualification Board for the last 8 years and the Building Code Councils residential ad hoc committee for the last 20 years. He is a past president of the NC Building Inspector's Association. Additionally, he has taught building code certification classes through the NC Community College system as well as continued education classes for both Code Officials and General Contractors for more than 15 years.

The Chief Plumbing Code Consultant position has been open since Mark Burns transitioned to Private Plan review, but a candidate has accepted the position, and will be announced in the latter half of March.

## New Code Interpretations, Guidance Papers, and Appeals Posted

Since the prior full newsletter (May 2023), the following web interpretations, guidance papers, or appeals have been posted. Since we are five or six-years into the present code cycle, there have not been many web interpretations required as of late. However, there have been ten formal interpretations made and posted since the prior full newsletter. The “Sort by” and “Order” drop down box sorts used for awhile have been eliminated. Instead, the published date is available by each interpretation.

## Education Section

### NC Building Code Training

The most up-to-date training schedule for all building codes are available at the following link:

<https://www.ncosfm.gov/licensing-cert/code-officials-qualification-board-coqb/coqb-code-education>

Once the web page is accessed, click the “**FIND A CLASS**” button to refine your search. Please check out the available on-line courses, and carefully read the locations and means of course offering. It is suggested that you contact the organization or individual providing the training to verify the locations and means of training before traveling to any given site or registering for a class. As always, please consider the use of Standard Courses for fulfilling Con-Ed requirements, as they are an underutilized tool for that purpose.

Reminder: Before signing up for any class, verify the course number. Attendee will not receive credit for courses that they attended within the prior three years. Some courses are taught at multiple sites across multiple years.

## Reminders and other Resources

### Open Mic

The department (OSFM-Engineering) has been utilizing the WebEx format for several years now and it has proven to be a good tool to reach jurisdictions choosing or being able to participate. In order to view the times, proceed to the following link, and follow the directions therein:

[COQB - Meeting Dates | OSFM \(ncosfm.gov\)](#)

Please participate as your time allows.

### Tentative 2024 NC Code Development Calendar:

The code volumes are in various stages, B-item, C-item, D-item, or re-submitted, and several are fully accepted and at the publisher getting ready for first editions. See the following link for any future meetings:

<https://www.ncosfm.gov/codes/building-code-council-bcc/bcc-ad-hoc-committee-meeting-information>

Although there have been some re-submission requirements due to formatting, the January 1, 2024 adoption date has slid a little, but the effective date of January 1, 2025 is still the achievable goal with supplemental Building Code Council Meetings.

As of this writing, (March 2024) all code volumes have been submitted for review, but based on feedback from Rules Review Commission, most code volumes were resubmitted with changes in formatting. We were tracking the progression with a tabular format, but with the resubmissions it is too cumbersome to illustrate. The following list provides the status of the code volumes to date.

### TABLE 1: NC 2024 CODE PROGRESSION TRACKING

Here is a status as of 2/28/24 of the 2024 NC Building Codes and the RRC approval process.

Code Volume	Status
Administrative Code	2024 NC Administrative Code and Policies: Approved at the 1/31/24 RRC meeting. ICC is currently publishing the first draft.
NC Electrical Code	2023 NC Electrical Code: Approved at the 2/28/24 RRC meeting.
Mechanical Code	2024 NC Mechanical Code: RRC received this code on 1/2/24. It is anticipated a vote will occur at the 3/27/24 RRC meeting.
Fuel Gas Code	2024 NC Fuel Gas Code: RRC received this code on 1/8/24. It is anticipated a vote will occur at the 3/27/24 RRC meeting.
Energy Code (not for 1-and-2 family dwellings)	2024 NC Energy Conservation Code: RRC received this code on 1/11/24. It is anticipated a vote will occur at the 3/27/24 RRC meeting.
Plumbing Code	2024 NC Plumbing Code: Approved at the 2/22/24 RRC meeting. Staff is preparing a draft to send to ICC for publication of the first draft.

Residential Code	2024 NC Residential Code: Approved at the 2/22/24 RRC meeting. Staff is preparing a draft to send to ICC for publication of the first draft.
Existing Building Code	2024 NC Existing Building Code: The NCBC is required to readopt this code at the 3/19/24 meeting as per the RRC attorney. Will resubmit to RRC on 3/19/24 and await comments from RRC. It is anticipated that this will be voted on at the 4/30/24 RRC meeting.
Building Code	2024 NC Building Code: The NCBC is required to readopt at the 3/19/24 meeting as per RRC. Will resubmit to RRC on 3/19/24 and await comments from the RRC. It is anticipated that this will be voted on at the 4/30/24 RRC meeting.
Fire Prevention Code	2024 NC Fire Code: The NCBC is required to readopt at the 3/19/24 meeting as per the RRC attorney. Will resubmit to RRC on 3/19/24 and await comments from the RRC. It is anticipated that this will be voted on at the 4/30/24 RRC meeting

Remember, the Residential standing committee had introduced (in the March 2023 meeting) a submittal that would keep the Chapter 11 (Energy), Chapters 12-23 (Mechanical) and Chapter 24 (Fuel Gas) the same as the 2018 version of the NC Residential Code. As noted in the previous newsletter, NCGS Session Law 2023-108 prohibits further action on several of the code volumes and combinations of code volumes that were being considered by the Building Code Council. The list of codes in Table 1 reflect the limitations of the statutes.
