The North Carolina High Angle Rescue School is a progressive school. The curriculum offers a wide range of rescue procedures consisting of “hands-on” tasks and skills with an examination given at the end of each level. The skills that are taught in this school are not limited to a wilderness environment, but can easily be adapted to urban high level rescue situations. A certificate will be awarded upon successful completion of all four levels.

Please list each attendee separately and indicate the level each person is requesting in the appropriate places below.
